

Online Course Package

Foundations of Autism

Course Description

This course package provides an exploration of Autism and Autistic experiences. Participants will gain an understanding of the characteristics and experiences of the Autism community. Topics covered include the neurological, communicative, sensory, and social aspects of Autism. Developed for a diverse audience, Autistic individuals, parents, caregivers, educators, professionals, and others interested in deepening their understanding of Autism are invited to participate. By the end of the course, participants will have gained a solid foundation to facilitate a journey from awareness to acceptance, fostering meaningful support for the Autism community.

By purchasing the Foundations of Autism course package, participants will gain access to:

Foundations of Autism – The Basics:

This course introduces basic concepts and characteristics of Autism. Participants will learn about Autism, key characteristics, neurodiversity, prevalence, co-occurring conditions, and intersecting identities.

Foundations of Autism – Beyond the Basics:

This course will take a deeper look at Autistic characteristics, highlighting a range of experiences. Chapters include content on information processing, sensory processing, communication, emotional regulation, social interactions, other common Autistic characteristics, and will end with the Autism Society's vision for acceptance, inclusion, and belonging.
