

Wearing My Tracking Bracelet

I have a special bracelet that I wear on my wrist or my ankle.

The bracelet lets my family know where I am.

It is important for me to wear my bracelet.

When using locative technology, informed and consensual decisions should be made that use the least restrictive environment and allows for personal autonomy for the individual.

Wearing My Tracking Bracelet

If the bracelet is itchy, my parents will find another way for me to wear it.

The bracelet helps my family keep me safe.

If I'm lost, the bracelet will help my family and first responders find me quickly.

Wearing My Tracking Bracelet

First responders who look for me might be police, fire rescue workers, or emergency medical technicians (EMTs).

Usually, first responders wear uniforms to help us identify them.

I will try to stay calm while my family looks for me.
